Industrial Fasteners & Foundation Bolts

RELIABLE SUPPLY FOR DOMESTIC & GLOBAL INDUSTRIES

INDIAGLOBE —EXIM—

"Made in India, Meant for the World."

LET'S TALK **ABOUT COMPANY**

- ◆ **IndiaGlobeExim** is a Gujarat-based supplier and exporter of industrial fasteners and foundation bolts, serving both domestic and global markets.
- ◆ With a strong focus on engineering precision and reliability, we cater to industries where fastening performance is critical to safety, durability, and structural integrity.
- ◆ We offer standard and customized fastening solutions manufactured as per DIN, ASTM, JIS and ISO standards. With a strong sourcing network and focus on quality, we ensure consistent supply, competitive pricing, and reliable delivery.
- ◆ With a customer-first approach, we aim to build long-term partnerships by delivering value through reliability, technical capability, and service excellence.

INDIAGLOBE
—EXIM—

"Made in India, Meant for the World."

LET,S TALK **WHY CHOOSE US**

- ◆ At **IndiaGlobeExim**, we understand that industrial fasteners are not just products—they are critical components that directly impact the safety, performance, and durability of your projects.
- ◆ Our approach is built on reliability, consistency, and long-term partnership.
 1. Consistent Quality You Can Depend On
 2. Strong Sourcing Network
 3. Customization Capability
 4. Competitive Pricing
 5. Reliable Delivery
 6. Export Expertise
 7. Wide Product Range
 8. Customer-Focused Approach
 9. Secure Packaging
 10. Long-Term Reliability

BOLTS & THREADED RODS

We offer a wide range of industrial bolts and threaded rods manufactured in Mild Steel, High Tensile, Stainless Steel (SS304/SS316), Alloy Steel & Brass materials. Available in sizes from M3 to M100 and custom lengths up to 3000 mm with finishes like Zinc Plated, HDG, Black Oxide, Dacromet & Geomet. Suitable for construction, machinery, fabrication, infrastructure, solar and engineering applications.

PRODUCT RANGE

WASHER

We manufacture and supply Flat Washers, Spring Washers, Fender Washers, Tooth Washers, Structural Washers and Special Washers in Mild Steel, Stainless Steel and Brass materials. Available in metric and inch sizes with Zinc Plated, HDG, Black Oxide and Plain finishes for load distribution, vibration resistance and sealing applications.

PRODUCT RANGE

We manufacture Foundation Bolts including L Type, J Type, U Type, Straight, Plate Type and Anchor Bolts in Mild Steel, High Tensile and Stainless Steel materials. Available from M12 to M100 with Hot Dip Galvanized, Zinc Plated and Black finishes for machinery foundations, steel structures, solar projects and infrastructure applications.

STIFNNER PLATE
TYPE

- At **IndiaGlobeExim**, we supply fasteners manufactured from high-quality raw materials and processed under controlled conditions to ensure strength, durability, and performance. Our products are available in various material grades and surface finishes to suit different industrial and environmental requirements.

MATERIAL SPECIFICATIONS

- We offer fasteners in the following material categories :

MILD STEEL (MS)

- Common grades : 4.6, 5.6
- Suitable for general-purpose applications
- Economical and widely used in construction and fabrication

HIGH TENSILE STEEL (HT)

- Grades : 8.8, 10.9, 12.9
- Heat-treated for high strength and load-bearing capacity Suitable
- for structural, heavy-duty, and critical applications

STAINLESS STEEL (SS)

- Grades : SS 304, SS 316
- Excellent corrosion resistance
- Suitable for outdoor, marine, and chemical environments

SURFACE FINISHING & COATING OPTIONS

- Protective coatings improve corrosion resistance and durability.

ZINC PLATING

- Provides basic corrosion protection
- Smooth finish and cost-effective
- Suitable for indoor and moderate environments

HOT DIP GALVANIZING (HDG)

- Thick zinc coating for superior corrosion resistance
- Ideal for outdoor and harsh environments
- Commonly used in infrastructure and construction

BLACK OXIDE

- Provides mild corrosion resistance
- Enhances appearance with black finish
- Suitable for indoor and industrial applications

THREAD TYPES

- Threads (ISO standard)
- UNC (Unified National Coarse)
- UNF (Unified National Fine)

MATERIAL & TECHNICAL DATA

SIZE RANGE

- Diameter : M4 to M100 (or as required)
- Length : As per standard or custom specifications

STANDARDS & COMPLIANCE

- DIN (German Standards)
- ASTM (American Standards)
- ISO (International Standards)
- JIS (Japanese Industrial Standards)

MECHANICAL PROPERTIES

- Depending on material grade, fasteners are designed to meet required mechanical properties such as:
 - Tensile Strength
 - Yield Strength
 - Hardness

APPLICATIONS SUITABILITY

- Our material and coating combinations are selected based on application requirements:
 - Indoor applications – Zinc Plated / MS
 - Outdoor structures – HDG / High Tensile
 - Corrosive environments – Stainless Steel

APPLICATIONS

Construction & Infrastructure

Machinery & Equipment Manufacturing

Oil & Gas Industry

Power & Energy Sector

As per the ISPM-15 standard

EXPORT MARKETS

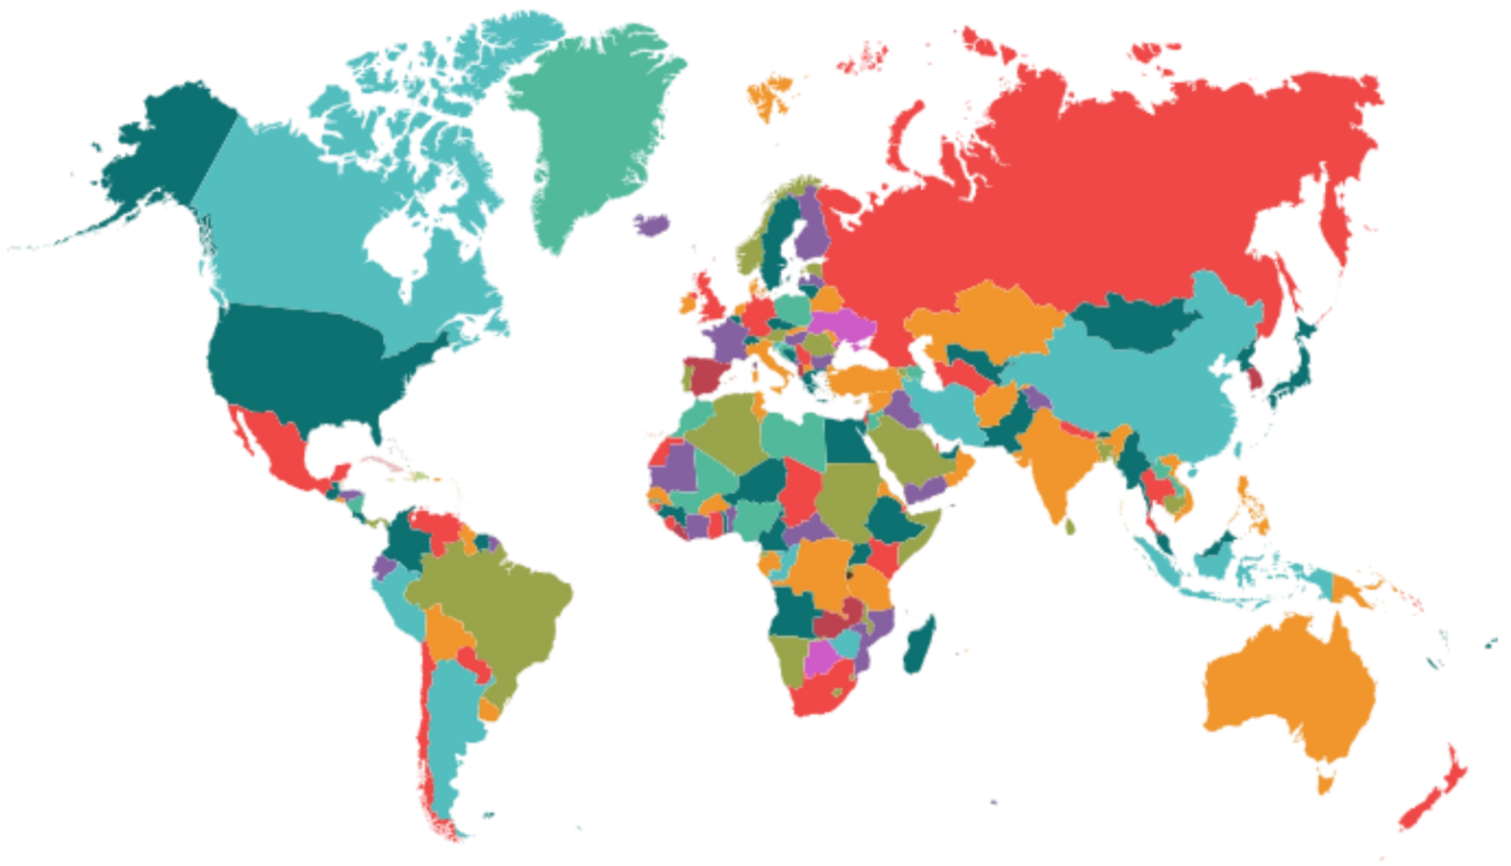

INDIAGLOBE
EXIM

"Made in India, Meant for the World."

- ◆ We are focused on supplying industrial fasteners to international markets with reliable quality and consistent service.

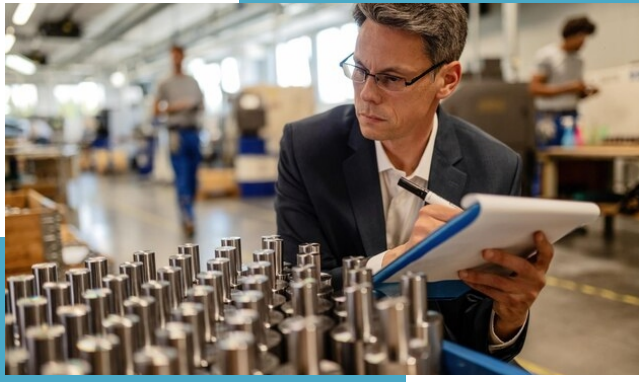

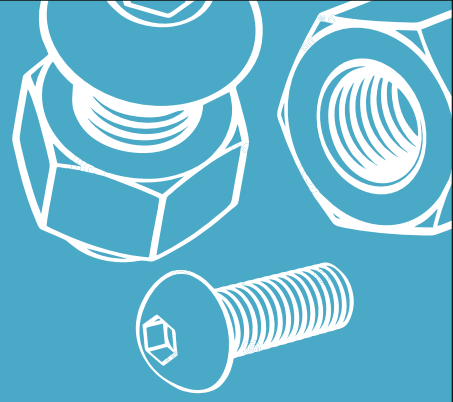

KEY MARKETS

OUR EXPORT FOCUS

- ◆ Supply as per international standards (DIN / ASTM / ISO/ JIS)
- ◆ Export-grade packaging and logistics
- ◆ Reliable communication and timely delivery

QUALITY CONTROL

Raw Material Inspection

Dimensional Checks

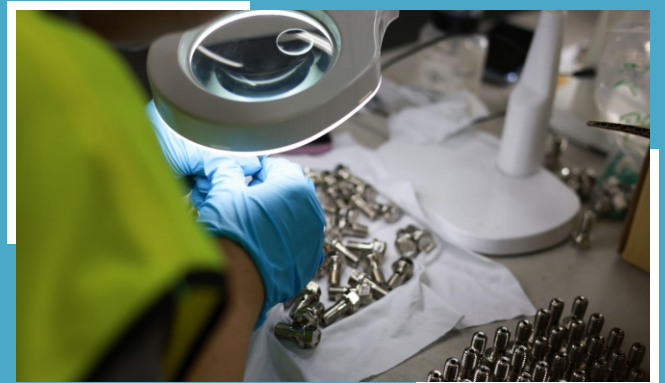

Thread Inspection

Mechanical Testing

Surface Inspection

Final Inspection

- ◆ We provide complete documentation support to ensure smooth processing of domestic and international orders.

Documents Provided

- ◆ Commercial Invoice
- ◆ Packing List
- ◆ Certificate of Origin (if required)
- ◆ Bill of Lading / Airway Bill
- ◆ HS Code Details
- ◆ Material Test Certificate (if required)
- ◆ Inspection Report
- ◆ Compliance with DIN / ASTM / ISO standards
- ◆ Tax Invoice
- ◆ Delivery Challan
- ◆ E-way Bill (as applicable)
